Hi,

We'd like to introduce to you our explainer video service, which we feel can benefit your site arc360.de.

Check out some of our existing videos here:
<https://www.youtube.com/watch?v=zvGF7uRfH04>
<https://www.youtube.com/watch?v=cZPsp217Iik>
<https://www.youtube.com/watch?v=JHfnqS2zpU8>

All of our videos are in a similar animated format as the above examples, and we have voice over artists with US/UK/Australian accents.

We can also produce voice overs in languages other than English.

They can show a solution to a problem or simply promote one of your products or services. They are concise, can be uploaded to video sites such as YouTube, and can be embedded into your website or featured on landing pages.

Our prices are as follows depending on video length:

Up to 1 minute = \$259

1-2 minutes = \$379

2-3 minutes = \$489

*All prices above are in USD and include a full script, voice-over and video.

If this is something you would like to discuss further, don't hesitate to reply.

Kind Regards,
Kate

Your Site Has Been Hacked

PLEASE FORWARD THiS EMAiL TO SOMEONE iN YOUR COMPANY WHO iS ALLOWED TO MAKE iMPORTANT DECiSiONS!

We have hacked your website arc360.de and extracted your databases.

How did this happen?

Our team has found a vulnerability within your site that we were able to exploit. After finding the vulnerability we were able to get your database credentials and extract your entire database and move the information to an offshore server.

What does this mean?

We will systematically go through a series of steps of totally damaging your reputation. First your database will be leaked or sold to the highest bidder which they will use with whatever their intentions are. Next if there are e-mails found they will be e-mailed that their information has been sold or leaked and your site arc360.de was at fault thusly damaging your reputation and having angry customers/associates with whatever angry customers/associates do. Lastly any links that you have indexed in the search engines will be de-indexed based off of blackhat techniques that we used in the past to de-index our targets.

How do i stop this?

We are willing to refrain from going through with these actions for a small fee. The amount: \$3500 (0.15 BTC)

The Address Part 1: bc1q5q57dsrnf4nm00w0c

The Address Part 2: 0yq92gfmf42g6n9ykccwg

So, you have to manually copy + paste Part1 and Part2 in one string made of 42 characters with no space between parts that start with "b" and end with "g" is, the actually address where you should send the payment. Once you have paid we will automatically get informed that it was your payment. Please note that you have to make payment within 72 hours after seeing this message or the database leak, e-mails dispatched, and de-index of your site WiLL start!

How do i get Bitcoins?

You can easily buy bitcoins via several websites or even offline from a Bitcoin-ATM.

What if i don't pay?

if you decide not to pay, we will start the attack at the indicated date and uphold it until you do, there's no counter measure to this, you will only end up wasting more money trying to find a solution. We will completely destroy your reputation amongst google and your customers.

This is not a hoax, do not reply to this email, don't try to reason or negotiate, we will not read any replies. Once you have paid we will stop what we were doing and you will never hear from us again!

Please note that Bitcoin is anonymous and no one will find out that you have complied. Finally don't reply as this email is unmonitored.
